

Devi Manoj

Full Stack Developer

+91 8302922872 | 2005devimanoj@email.com | Portfolio | GitHub

Professional Summary

B.Tech Computer Science student and Full Stack Developer skilled in React, Next.js, Node.js, JavaScript, TypeScript, and modern web technologies. Passionate about building scalable applications, solving real-world problems, and contributing to innovative software projects.

Education

B.Tech in Computer Science Engineering

2024–2028

St Joseph's College of Engineering and Technology (SJCET), Palai

Technical Skills

Languages: JavaScript, TypeScript, Python, Java, C#, C, SQL

Frontend: React.js, Next.js, HTML, CSS, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, Django, Spring Boot

Databases: MongoDB, MySQL, SQLite, Firebase

Tools: Git, GitHub, Vercel, Netlify, Render, Figma, Notion

Security: Authentication, Authorization, Secure APIs, HTTPS

Experience

Software Developer Intern, Beyond Innovators

2026–Present

- Developed full-stack applications using React.js, Next.js, Node.js, and MongoDB.
- Integrated REST APIs and optimized application performance.
- Participated in testing, debugging, and Agile development workflows.

Frontend Intern, MuLearn

6 Months

- Developed responsive UI components using React.js.
- Contributed to frontend optimization and code quality improvements.

Technical Officer, IEDC SJCET

2026–Present

- Led technical initiatives, workshops, and prototype development activities.

Design Lead, CSEA SJCET

2025–Present

- Designed branding materials and digital assets for technical events.

Web Team Member, IEEE SJCET

2025–Present

- Contributed to website development and technical content publication.

Projects

Secure Print Sharing System – Secure document-sharing platform with end-to-end encryption, role-based access control, and real-time updates.

AI Interview Preparation System – AI-powered interview practice platform with NLP-based feedback and personalized suggestions.

Relationship Web Application – Interactive graph-based platform for visualizing and managing relationships.

Class Seat Reservation System – Real-time classroom booking system with authentication and administrative controls.

Achievements

- 1st Place – SheBuild Hackathon, SJCET Palai.
- 2nd Place – Smart India Hackathon Preliminary Round.
- Selected for an exclusive technical workshop at IIT Madras.
